For users who have updated the latest version of GX Simulator v.06.14, the software GX Configurator should automatically be updated. You can use GX Simulator to check.Q: How to create an interval (fake) date in Hsql|DBC Basically I am trying to create a date with a given duration. For example: select date_add(to_date('21-09-2013 10:59:09'), interval '00:00:05.567', If I take an interval like '02:00:05.567' this will create the result of 19-09-2013 10:59:09 but this is not what I'm looking for. I would like to create an interval which in the above example can be '08:00:05.567' (i.e. an interval between two days). Does HSQL support such creation of intervals?
