The real world... a place where a single operation may contain the possibility of many outcomes. It would be a place of many possibilities, many potential outcomes. This world has been described for centuries, and the idea, and its name, is an outgrowth of the book of Proverbs by King Solomon. In chapter 12, verses 18 through 25, King Solomon summarizes all the ways in which we reach goals: • Circumstances. • Acts. • Affairs. • Endings. • Conclusions. The book of Proverbs is a book of statements on the subject of the world. It treats the subject of the world with wisdom and insight and it is a book you will study and remember. The ancients knew that all of life depends on the outcome of a single event. They knew that in their day, what they thought of as a stroke of lightning was a good suggestion. They understood the world to be a place of many possibilities. They understood that at the end of the day, as men and women looked back on the day, they would know the outcome. They knew that to repeat a move was to play into the hands of a better opponent. The great law of life and the reason for the life-and-death nature of gambling - betting on the outcome of events of all kinds - is expressed in: • "I will give you the victor's wages." (Proverbs 18:10) What is "I will give you the victor's wages?" Sometimes gamblers, even those most successful at some time, are caught short. At the end of the year, they will find they have less in their savings account than when they started out. They have been beaten, they have been hustled, they have been given the bum's rush. They are in trouble. But their loss is
